

## Summary of resolutions passed by the Pathoplexus Executive Board on 15 May 2026

*Excluding resolutions passed during Executive Board Meetings - please see the meeting summary for these*

By majority vote of votes submitted the Pathoplexus Executive Board has passed the following resolutions:

- On 15 May 2026, by 3/3 votes submitted, the Board voted in favour of authorizing extending support to additional Orthoebolaviruses, in recognition of the new outbreak in the Democratic Republic of the Congo, which appears to be neither the Zaire or Sudan species. The Board believes that since all Ebola outbreaks are of high public health concern, Pathoplexus should add support for additional species as necessary.

This was voted on with the following resolution:

- "I support the addition of additional Orthoebolavirus instances to Pathoplexus, as needed, if and when the development team are able to add support and consider it useful to do so."
